APPLICATION 101: FAQs

When does the screening occur?

Immediately after the application is paid for and submitted, the renter's identity is verified, Employment + Tenancy verification requests are automatically sent, and Experian reports are available for your review.

What's included in screening?

Intellirent helps you collect the completed application and conduct Tenancy + Employment verifications, while Experian verifies identity and returns Credit and Background reports. Members should review and complete Income + Pet verifications.

What is the time for a response on credit?

*Reports are returned **instantly** upon completion of the application process, unless the applicant is required to contact Experian for a manual identity verification. In these rare instances, applicants are provided with next steps and reports are returned in 24-48 hours from when the applicant contacts Experian.*

How do I get the returned information?

When applications are submitted or verifications are completed, Members will receive an email notification with details or next steps, and a link to log in to their account to review application data.

Is the credit check a hard or soft pull?

A soft inquiry! *When the applicant submits their application data online, they are requesting the release of their information directly with Experian. Members receive a full comprehensive report, without it impacting the applicant's credit history.*

What if my applicant does not have some required information?

In an effort to help members collect complete applications, all data is required. Depending on your own discretion, if an applicant needs to move forward in the application without entering the required information, they can enter "dummy" data to proceed, such as noemail@noemail.com, "0s" for financial information, etc.

Do roommates & guarantors also pay the \$40 application fee?

Yes, a separate file is compiled per adult applicant. All individuals age 18+ applying are required to pay the application fee.

I approved an applicant, where is the BPOA lease form?

For a copy of the BPOA lease form members receive, please contact BPOA directly.

Can I enter the application data for my applicant?

Applicants are required to enter their own data into the application and complete their own identity verification exam with Experian for security purposes.

APPLICATION 101:

Applicant Best Practices

- Applicants should **only** create their renter account through the **invitation link** sent by you. Do not ask applicants to go directly to the Intellirent website.
- Applicants can log out and back into their application at any time.
- Applicants should **NOT** use the invitation link to log back into their application, they should log in through: www.myintellirent.com/sessions/new
- All **data fields** of the application are required before saving and continuing to the next page.
- Supporting documents/attachments are not *initially* required before paying, and submitting. Applicants can log back into their account to upload any missing documentation even after submitting.
- Communicate with potential renters about your rental criteria and the type of documents you will require they submit in their application.
- Applicants should inform their landlords and employers that we will be requesting verifications, and make sure to provide the **most accurate contact information** of the person who can verify their details.
- If the applicant has more than one job or Source of Income, they should select +Another Income Source at the bottom of the page. Each source should be added separately.
- The Experian ID security step that is timed and directly related to your applicant's credit background. *It is important that **the person who is associated with the social security number** answer these security questions.
- If the applicant receives any error message, they should **immediately** follow the steps displayed to them to ensure reports are sent back as soon as possible.

If your applicants have any additional questions, they should visit the knowledge base created just for renters here, [Knowledge Base: For Renters](#).
